#### STRENGTH TRAINING

**WEIGHT SUPERSETS**

A superset means doing two consecutive exercises back to back without a rest. Use a low to medium weight that feels challenging. You don’t have to overdo it with weight because the workout includes lots of reps, continuing to build lean muscles and muscle endurance.

**Superset 1 (3 times; rest 30 secs at the end of each superset)**

**DUMBBELL DEADLIFT**

Set a pair of dumbbells on the floor in front of you. Bend at your hips and knees, and grab the dumbbells with an overhand grip. Without allowing your lower back to round, stand up with the dumbbells and thrust your hips forward. Lower your body back to the starting position.

- **Round 1:** 10 reps
- **Round 2:** 12 reps
- **Round 3:** 15 reps

**SQUAT JUMP**

Place your fingers on the back of your head and pull your elbows back so that they’re in line with your body. Dip your knees in preparation to leap. Explosively jump as high as you can. When you land, immediately squat down and jump again.

- **Round 1:** 10 reps
- **Round 2:** 12 reps
- **Round 3:** 15 reps

- **Round 1:** 10 reps  
- **Round 2:** 10 reps  
- **Round 3:** 15 reps

**MOUNTAIN CLIMBER**  
Get into the pushup position, keeping your arms completely straight and directly beneath your shoulders. Tighten your stomach and lift one foot off the floor, raising your knee up toward your chest while keeping your body in as straight of a line as possible. Return to the starting position and repeat the movement with your opposite leg.

- **Round 1:** 12 reps  
- **Round 2:** 15 reps  
- **Round 3:** 20 reps

**Superset 3 (3 times; rest 30 secs at the end of each superset)**

**LEG EXTENSION MACHINE**  
Sit down on the seat and hook your legs behind the padded bar. Adjust the bar so that it rests on your lower legs. Select a weight and slowly lift the bar until your legs are almost straight, then lower your legs back down. Make sure to keep your back straight and grip the handles on each side of the seat.

- **Round 1:** 10 reps

Hold 30 secs each side

**BICEPS STRETCH**  
Hold 45 secs

**GLUTE FOAM ROLL**  
Roll back and forth on each side for 10 reps

Grab a foam roller and sit on the ground, your legs extended in front of you and your hands on the ground behind you. Place the foam roller under your right glutes, and bring your left ankle up to your right knee, letting it rest there. With your weight resting on your hands and on the foam roller, rock back and forth so that the foam roller rolls up and down your glutes.

Keeping your torso stationary, drive your elbows past your back and pull the cable attachment toward the waist. Attempt to squeeze shoulder blades together and hold this contraction for a second. Gym Days: 5 (pick whichever 5 days of the week you can work out)

STRENGTH TRAINING

SIDE PLANK
Begin facedown with your elbows resting on the floor or a mat. Rotate to the right side, then pushup so you are resting on your right forearm and outer right foot, with your hips and back in alignment. Try not to let your hips sag. Repeat on left side.

Round 1: Hold for 1 min each side
Round 2: Hold for 40 secs each side
Round 3: Hold for 20 secs each side

Circuit 4 (3 times; rest 1 min at the end of each circuit)

ONE-ARM DUMBBELL ROW
Grab a dumbbell in one hand and hold it at arm's length. Bend at your hips (don't round your lower back) and lower your torso until it's almost parallel to the floor. Let the dumbbell hang at arm's length from your shoulder. Without moving your torso, row the dumbbell upward by raising your upper arm, bending your elbow and squeezing your shoulder blades together. Pause, then lower the dumbbell back to start. Do all reps, then hold the dumbbell in your other hand, and repeat.

Round 1: Do as many as you can for 1 min
Round 2: Do as many as you can for 45 secs
Round 3: Do as many as you can for 30 secs

DUMBBELL FLY
Grab a pair of dumbbells and lie on your back on a flat bench. Raise your arms straight above your chest with your palms facing each other and your elbows slightly bent. Slowly lower the dumbbells in an arc down and away from your body. Once the dumbbells are just above your chest—reverse the movement back to the starting position, making sure you squeeze the muscles in your chest at the top of the movement.

Round 1: Do as many as you can for 1 min
Round 2: Do as many as you can for 45 secs
Round 3: Do as many as you can for 30 secs

Stretching: 5 mins

STRETCH SESSION

CALF FOAM ROLL
Roll back and forth on each side for 10 reps
Grab a foam roller and sit on the ground, your legs extended in front of you and your hands on the ground behind you. Place the foam roller under one leg, letting it rest under the calf muscle. Raise your hips so that your weight is resting on your hands and the foam roller. Rock forward and backward so that the foam roller rolls up and down your calf.

HAMSTRING FOAM ROLL
Roll back and forth on each side for 10 reps
Grab a foam roller and sit on the ground with your legs extended in front of you and your hands on the ground behind you. Place the foam roller under one hamstring, and bring your other ankle up to rest on the knee on the foam roller. Raise your hips so that your weight is resting on your hands and the foam roller. Rock back and forth so the foam roller rolls up and down your hamstring.

STRENGTH TRAINING

BICEPS/TRICEPS—Mid-Weight Workout

Circuit 1 (3 times; rest for 30 secs at the end of each circuit)

PUSHUP — 10 reps
Get on all fours, and place your hands on the floor slightly wider than and in line with your shoulders. Your body should form a straight line from your ankles to your shoulders. Squeeze your abs as tight as possible, and keep them contracted for the entire exercise. Lower your body until your chest nearly touches the floor, making sure that you tuck your elbows close to the sides of your torso. Pause, then push yourself back to the starting position.

JUDO PUSHUP — 10 reps
Get in the pushup position with legs wider than hip-width apart and arm directly underneath your shoulders. Step feet in slightly toward your hands and lift your hips so that your body forms an inverted V. Keeping your core tight and elbows close to the body, bend your arms and lower your chest to the floor. At the bottom of the movement, swoop your head and shoulders upward while lowering your hips until they almost touch the floor. Reverse the motion and return to start.

Circuit 2 (3 times; rest for 30 secs at the end of each circuit)

CABLE CROSSOVER
Begin in a staggered stance with your body positioned in the middle of a dual cable machine with one weight stack on either side of you. Adjust the handles so they’re slightly lower than shoulder height and grab the handles so your palms are facing forward and your arms are roughly parallel with the ground. Maintain a slight bend in the elbows. Contract your pecs and pull your arms together in front of you, keeping a slight forward lean from the waist up. Pause, and then slowly return the weight back to the starting position.

**STRENGTH TRAINING CONT.**

**ALTERNATING DUMBBELL CURL**

Stand with feet shoulder-width apart, holding a dumbbell in each hand with an overhand grip and palms facing your sides. Curl the right dumbbell toward the right shoulder by flexing the elbow. The other dumbbell should remain at your left side. Try to minimize moving the elbow (shoulder flexion) or cheating with the lower back. As you curl the weight up, twist the pinky finger of the working arm toward the ceiling. This intensifies the contraction in the biceps.

Hold at the top for 1 sec and return to the starting position, and then repeat the movement using the left dumbbell.

- **Round 1:** 15 reps each side
- **Round 2:** 12 reps each side
- **Round 3:** 10 reps each side

**STACKED FEET PUSHUP**

Get in the standard pushup position with your hands slightly wider than shoulder-width apart and elbows completely locked out. Keeping one foot planted on the ground, pick the other foot up and place it on the heel of the planted foot. Keeping your core tight, slowly lower yourself toward the ground. Make sure to keep your elbows tucked in close by your sides so they make a 45-degree angle with your torso. Once your chest touches the ground, pause, and then press back up to the starting position. Repeat for the prescribed number of sets and reps.

- **Round 1:** 15 reps
- **Round 2:** 12 reps
- **Round 3:** 10 reps

**Circuit 3 (3 times; rest for 30 secs at the end of each circuit)**

**TRICEPS DUMBBELL KICKBACK**

Kneel over one side of a weight bench by placing the right knee and right hand on the bench. Position the left leg slightly back and to the side with the left foot firmly planted on the floor. The torso should be parallel to the floor. Grab a dumbbell with the left hand with an overhand grip, and position the elbow at your side so the upper arm is parallel to the floor. Now extend the left arm to full extension by contracting the triceps.
