WEEK 11
Goal: Boost Performance Advanced
Gym Days: 5 (pick whichever 5 days of the week you can work out)

CARDIO + STRENGTH TRAINING COMBINED

BOOTCAMP WORKOUT
This strength workout is great for all your muscles, plus it adds a little cardio to keep it interesting.

Series 1 (10 times, then rest 1 min)

JUMPING JACKS — 1 min
Stand with your feet together and your hands at your sides. Simultaneously raise your arms above your head and jump your feet out to the sides. Immediately jump back to the starting position.

WALKING HIGH KNEES — 20 reps each side
Stand tall with your legs straight and arms hanging at your sides. Kick your right knee up, bringing it as high as possible before slowly lowering it. Immediately repeat with your left knee to “walk” forward.

LATERAL STEPOVER — 10 reps each side
Stand tall with a bench to your right side. Raise your right knee and laterally step your right foot over the bench. Immediately follow the movement with your left leg, so that you end up on the other side of the bench. Repeat to the other side.

Series 2 (10 times; then rest 1 min)

SQUAT JUMP — 12 reps
Place your fingers on the back of your head and pull your elbows back so that they’re in line with your body. Dip your knees in preparation to leap. Explosively jump as high as you can. When you land, immediately squat down and jump again.

WEEK 11

Goal: Boost Performance Advanced
Gym Days: 5 (pick whichever 5 days of the week you can work out)

DAY 1

SCISSOR POWER SWITCH — 12 reps each side
Stand with your feet a lunge-length apart, with your right foot in front of your left. Bend both knees to 90 degrees and descend into the lunge. Reach for the ground with your left hand. Jump off the ground while swinging your arms forward. Switch your feet in the air and land with your left foot forward. Descend into a lunge in preparation for the next rep. Alternate sides and complete all reps.

SQUAT, PLANK, PUSHUP — 10 reps
Stand with feet shoulder-width apart and toes pointed outward. Lower your hips until your thighs are parallel to the ground and place your hands directly in front of you on the floor. Jump the legs back so that you’re in a full plank position. Keeping the elbows tucked close to the torso, descend into a pushup until your chest touches the ground. Jump your feet forward into a squat position and repeat.

JUMPING JACKS — 1 min
Stand with your feet together and your hands at your sides. Simultaneously raise your arms above your head and jump your feet out to the sides. Immediately, jump back to the starting position.

Series 3 (10 times; then rest for 1 min)

SPLIT JACKS — 10 reps
Stand tall, your hands hanging at your sides. Lunge forward with your right foot in front of you and your left foot behind you as you reach your left arm skyward and bring your right arm down and slightly behind you. Reverse the motion, going back and forth.

LATERAL LEAP AND HOP — 10 reps each side
Stand on your right leg and take your left foot completely off the ground. Make sure to keep a slight bend in the right knee. Bend your right knee a bit deeper and then explosively leap to the left and land on your left foot. Do not allow your right foot to touch the ground. Pause, and then hop once on your left leg.

**DAY 1**

**CARDIO + STRENGTH TRAINING COMBINED**

**SQUAT THRUSTS** — 10 reps  
Stand tall with your feet shoulder-width apart and arms hanging at your sides. Push your hips back and bend your knees to descend into a squat. Drop your hips as low as possible and place your palms on the ground. Kick your legs backward so you’re in a pushup position. Quickly bring your legs back to the squat position and jump up quickly back to the starting position.

**PUSHUPS PLUS** — 10 reps on each side  
Assume a standard pushup position with your feet slightly elevated on a bench behind you. With your hands a bit wider than shoulder-width apart, transfer most of your body weight to one hand and slowly lower yourself toward that side until your chest is nearly touching the ground. Pause, and then push yourself back up to the starting position. Repeat on the other side.

WEEK 11

Goal: Boost Performance Advanced

Gym Days: 5 (pick whichever 5 days of the week you can work out)

DAY 1

CARDIO TRIATHLON
Step it up to the advanced version of the Gold's Gym Indoor Cardio Triathlon—you’re ready!

STAIR STEPPER (15 mins)
A traditional triathlon starts with swimming, but for our indoor version try a stair stepper that provides a challenging workout. Think of this portion as your warm-up to the bike and run. Use the handles for balance—don’t hang or pull on them.

Tip: As with most cardio machines, interval training will help burn more calories.

BICYCLE (45 minutes)
To gain maximum cycling benefits, properly align yourself before you start. Adjust the seat so that your knees have a slight bend when extended. Find a comfortable resistance that allows you to maintain around 80 revolutions per min (RPM).

Tip: For the last 2 mins, lower the resistance and increase your RPM to 90.

TREADMILL (3 miles)
Because your legs will likely feel a little rubbery after the bike ride, ease into the run. In fact, you should feel free to start with 1 or 2 mins of walking or jogging to get going. Once you’re in a groove, build up speed.

CORE CHECK-IN

PLANK — 3 sets of 1-min holds (rest for 30 secs between holds)
Lie facedown with your elbows directly beneath your shoulders and raise your torso into the air until it’s a completely straight line from your shoulders to your ankles. Tighten your stomach, squeeze your glutes, and hold.

SIDE PLANK — 3 sets of 1-min holds on each side (rest for 30 secs between holds)
Begin facedown with your elbows resting on the floor or a mat. Rotate to the right side, then push up so you are resting on your right forearm and outer right foot, with your hips and back in alignment. Try not to let your hips sag. Repeat on left side.
