WEEK 11 | Goal: Build Muscle Advanced
Gym Days: 5 (pick whichever 5 days of the week you can work out)

DAY 1

CARDIO
Do the Gold's Gym indoor cardio triathlon!

ELLIPITICAL (15 mins)
A traditional triathlon starts with swimming, but for our indoor version try an elliptical machine that provides a highly efficient low-impact workout. Think of this portion as your warm-up to the bike and run, and be sure to keep your head and body upright.

BICYCLE (15 mins)
To gain maximum cycling benefits, properly align yourself before you start. Adjust the seat so that your knees have a slight bend when extended. Find a comfortable resistance that allows you to maintain around 80 revolutions per minute.

TREADMILL (15 mins)
Because your legs will likely feel a little rubbery after the bike ride, ease into the run. In fact, you should feel free to start with 1 or 2 mins of walking or jogging to get going. Once you’re in a groove, build up speed.

STRENGTH TRAINING
Plyometric workouts utilize jumps, hops and rapid movements to engage muscle groups in your core and lower and upper body—at times simultaneously—to increase balance and strength.

Do 3 sets of each of these exercises in this order, resting for 1 mins between each set.

SQUAT JUMP ONTO BOX — 15 reps
Stand in front of a 12-inch box, or a stabilized weight bench. Push your hips back, squat down and jump with both feet onto the box. Jump off the box, reset and repeat the movement. Repeat until desired amount of reps are completed.

WARM-UPS
SHOULDER CIRCLES
30 secs each direction

NECK ROTATIONS
5 reps each side

GOOD MORNING STRETCH
5 reps

Gym Days: 5 (pick whichever 5 days of the week you can work out)

Warm-up: 15-min brisk walk or jog on the treadmill / Zone 3
(Zone 1 is a light warm-up, and Zone 5 is nearly maximum effort.)

**STRENGTH TRAINING**

**SQUAT** — 3 sets of 15 reps; rest 30 secs between sets
Stand as tall as you can with your feet shoulder-width apart, toes pointed outward. Keep arms in front of you at chest height to help maintain balance. Drop your hips and sit back until your thighs are parallel with the floor. Pause, then drive through the heels and lift body upward back to the starting position, squeezing the glutes at the top of the movement.

**STEP-UPS WITH DUMBBELL** — 3 sets of 15 reps each side; rest 30 secs between sets
Stand behind an exercise bench or box. Hold a dumbbell in each hand at your sides and place your right foot on the box. Shift your weight onto your right leg to step onto the box. Keep the help from your left leg to a minimum. Finish by stepping onto the box with your left leg. Step your left leg down. Do all reps with your right leg, switch sides, then repeat.

**FIRE HYDRANT** — 3 sets of 20 reps each side; rest 30 secs between sets
Get on your hands and knees on the floor, making sure to keep your knees and hands hip-width and shoulder-width apart, respectively. Your knees should be bent to 90 degrees, directly beneath your hips. Tighten your core and, without moving your hips, raise your right thigh out to the right side of your body, keeping your knee bent the entire time. Without dropping your hips, straighten your leg backward so that it is in line with the rest of your body. Return to the starting position to switch legs.

**GLUTE BRIDGE WITH ADDUCTION** — 3 sets of 1.5-min holds; rest 30 secs between sets
Lie on your back with your knees bent and heels flat against the floor. Keep your feet hip-width apart. Place a medicine ball, rolled-up towel, or exercise mat between your knees. Finish the movement by squeezing your butt, making sure not to use your lower back.

### WALL SQUAT  
10 reps  
Stand with your back pressed up against a wall. Your feet should be slightly in front of you and shoulder-width apart. Squat down, keeping your heels flat and knees out. Hold your arms out for balance. Stay in this position for up to 10 seconds, then stand and return to the starting position. Complete all reps.

Squeeze your abs as tight as possible and keep them contracted for the entire exercise. Lower your body until your chest nearly touches the floor, making sure that you tuck your elbows close to the sides of your torso. Pause, then push yourself back to the starting position.

STRENGTH TRAINING

**DUMBBELL FLY** — 3 sets of 15 reps; rest 30 secs between sets

Grab a pair of dumbbells and lie on your back on a bench with a 30 to 45 degree angle. Raise your arms straight above your chest with your palms facing each other and your elbows slightly bent. Slowly lower the dumbbells in an arc down and away from your body. Once the dumbbells are almost in line with your chest—but just above it—reverse the movement back to the starting position, making sure you squeeze the muscles in your chest at the top of the movement.

**PUSHUP WITH MEDICINE BALL** — 3 sets of 15 reps each side; rest 30 secs between sets

Grab a medicine ball and place it on the ground. Get in the standard pushup position with one hand on the floor and the other hand on top of the medicine ball. Your body should be in a straight line with your legs straight and toes pointing into the ground. Keeping your core tight, slowly lower yourself toward the ground. Make sure to keep your elbows tucked in close by your sides so they make a 45-degree angle with your torso. Once your chest nearly touches the ground, pause, and then press back up to the starting position. Roll the medicine ball beneath the other hand and perform the same movement.

**SINGLE-ARM STANDING CABLE REVERSE FLY** — 3 sets of 15 reps each side; rest 30 secs between sets

Stand next to an adjustable cable machine so that it is on your right. Hold the D-handle attachment with your left hand, palm facing your right oblique. Keep your left elbow tight to your side. Rotate your left shoulder by bringing the handle across your body until your arm is almost extended, then return to the starting position. Switch sides and repeat.

**DUMBBELL SHOULDER PRESS** — 3 sets of 15 reps each side; rest 30 secs between sets

Hold a pair of dumbbells just outside your shoulders, your arms bent and palms facing forward. Set your feet at shoulder-width and bend your knees slightly. Press both dumbbells up, until your arms are straight. Then return to the starting position.

**STRENGTH TRAINING**

**SEATED CABLE ROW**  
3 sets of 15 reps each side; rest 30 secs between sets

Sit at a low pulley cable station with a V-handle attachment. Place feet securely on the platform and, using your legs (not your back), sit back into the start position with your arms fully extended and supporting the weight. Keeping your torso stationary, drive your elbows past your back and pull the cable attachment towards the waist. Attempt to squeeze shoulder blades together and hold this contraction for a second. Return the weight until the arms are fully extended, and repeat the movement. To end the set, return the weight to the starting position by bending at the knees and not the lower back.

**STRAIGHT-ARM LAT PULLDOWN**  
3 sets of 15 reps; rest 30 secs between sets

Sit at a lat-pulldown station and grab the bar with an overhand grip that's just beyond shoulder-width. Your arms should be completely straight and your torso upright. Pull your shoulder blades down and back, and bring the bar to your chest. Pause, then return to the starting position.

**PLANK**  
3 sets of 1.5-min holds; rest 30 secs between sets

Lie facedown with your elbows directly beneath your shoulders, raising your torso into the air until it's a completely straight line from your shoulders to your ankles. Tighten your stomach, squeeze your glutes, and hold this position for the desired amount of time.

**REVERSE CRUNCH**  
3 sets of 30 reps; rest 30 secs between sets

Lie on your back with your knees together and your legs bent to 90 degrees, feet planted on the floor. Place your palms facedown on the floor for support or cross over your chest. Bring your knees into your chest, tightening your abs to lift your hips off the floor. Pause at the top before lowering your legs as close to the ground as possible without allowing your lower back to arch and lose contact with the floor. Return to the starting position.

**CRUNCH**  
3 sets of 40 reps; rest 30 secs between sets

Lie flat on your back, placing your hands behind your head or ross over your chest. Bring your feet close to your glutes so your knees are bent and your feet are flat on the ground. Tighten your abs and lift your shoulders and upper back off of the ground. Squeeze your abs at the top of the movement and hold for one second. Return to starting position and repeat.

**STRENGTH TRAINING**

**BACK SQUAT** — 3 sets of 15 reps; rest 30 secs between sets

Hold a barbell across your upper back with an overhand grip and your feet shoulder-width apart. Keeping your lower back arched, lower your body as deeply as you can by pushing your hips back and bending your knees. Pause, then reverse the movement back to the starting position.

**DUMBBELL STRAIGHT-LEG DEADLIFT** — 3 sets of 15 reps; rest 30 secs between sets

Grab a pair of dumbbells with an overhand grip, and hold them at arm's length in front your thighs. Stand with your feet hip-width apart and your knees slightly bent. Brace your core—try to make it stiff—and hold it that way throughout the entire movement. Without changing the bend in your knees, bend at your hips and lower your torso until it's almost parallel to the floor. Don't round your lower back. It should stay naturally arched as you lower your body. Pause, then squeeze your glutes tightly and raise your torso back to the starting position.

**LEG PRESS MACHINE** — 3 sets of 15 reps; rest 30 secs between sets

Sit on a leg-press machine with feet hip-width apart. Bend your knees 90 degrees, keeping your feet flat against the foot plate. Extend your legs until they are straight but not locked. Slowly return to the starting position.

**SPLIT SQUAT WITH DUMBBELL** — 3 sets of 15 reps each side; rest 30 secs between sets

Hold a pair of dumbbells at arm's length next to your sides, your palms facing each other. Stand in a staggered stance, your left foot in front of your right. Slowly lower your body as far as you can. Your rear knee should nearly touch the floor. Pause, then push yourself back up to the starting position. Complete the prescribed number of reps, then do the same number of reps with your right foot in front of your left.

**SHIFTING SIDE LUNGE** — 3 sets of 15 reps each side; rest 30 secs between sets

Hold a dumbbell in each hand, keeping your arms entirely straight. Push your chest out and take a large step to the side, pushing your hips back and bending the knee of the lead leg. Keep your trailing leg as straight as possible. As you lunge, bend forward at the hips and reach the dumbbells on both sides of your lead leg, making sure to keep your lower back from rounding. Bend your opposite knee, shifting the weight onto both legs while reaching the dumbbells straight down in front of you. Straighten your former lead leg, shifting your weight to the opposite side while lunging, placing the dumbbells on both side of that leg. Push off your lead leg, bringing your feet together and returning to the starting position.

**LEG CURL MACHINE** — 3 sets of 15 reps; rest 30 secs between sets

Lying stomach-down on the bench part of the machine, hook your ankles behind the padded leg rests. Draw your ankles toward your buttocks until your legs form a 90-degree angle. Slowly return to the starting position.

**LEG EXTENSION MACHINE** — 3 sets of 15 reps; rest 30 secs between sets

Sit down on the seat and hook your legs behind the padded bar. Adjust the bar so that it rests on your lower leg. Slowly lift the bar until your legs are almost straight, then lower your legs back down. Make sure to keep your back straight and grip the handles on each side of the seat.
