QUOTE OF THE WEEK:
"In the end, if you're still just there, doing it, you win."

WEEK 12

Goal: Build Muscle
Gym Days: 5 (pick whichever 5 days of the week you can work out)

Warm-up: 10-min brisk walk or jog on the treadmill / Zones 3–4
(Zone 1 is a light warm-up, and Zone 5 is nearly maximum effort.)

**STRENGTH TRAINING**

CABLE CROSSOVER — 3 sets of 15 reps each side; rest 30 secs between sets
Begin in a staggered stance with your body positioned in the middle of a dual cable machine with one weight stack on either side of you. Adjust the handles so they’re slightly lower than shoulder height and grab the handles so your palms are facing forward and your arms are roughly parallel with the ground. Maintain a slight bend in the elbows. Contract your pecs and pull your arms together in front of you, keeping a slight forward lean from the waist up. Pause, and then slowly return the weight back to the starting position.

PUSHUP — 3 sets of 12 reps; rest 30 secs between sets
Get on all fours, and place your hands on the floor slightly wider than and in line with your shoulders. Your body should form a straight line from your ankles to your shoulders. Squeeze your abs as tight as possible and keep them contracted for the entire exercise. Lower your body until your chest nearly touches the floor, making sure that you tuck your elbows close to the sides of your torso. Pause, then push yourself back to the starting position.

SEATED CABLE ROW — 3 sets of 15 reps; rest 30 secs between sets
Sit at a low pulley cable station with a V-handle attachment. Place feet securely on the platform and using your legs (not your back), sit back into the start position with your arms fully extended and supporting the weight. Keeping your torso stationary, drive your elbows past your back and pull the cable attachment toward the waist. Attempt to squeeze shoulder blades together and hold this contraction for a second. Return the weight until the arms are fully extended, and repeat the movement. To end the set, return the weight to the starting position by bending at the knees and not the lower back.

DUMBBELL FRONT RAISE — 3 sets of 15 reps; rest 30 secs between sets
Stand tall with your feet hip-width apart, holding a dumbbell in each hand in front of your thighs. Your palms should face toward you. Raise your arms in front of you, pausing once the dumbbells reach shoulder height. Return the weights to the starting position.

WEEK 12

Goal: Build Muscle

Gym Days: 5 (pick whichever 5 days of the week you can work out)

DAY 1

STRAIGHT-ARM LAT PULLDOWN — 3 sets of 15 reps; rest 30 secs between sets
Sit at a lat-pulldown station and grab the bar with an overhand grip that's just beyond shoulder-width. Your arms should be completely straight and your torso upright. Pull your shoulder blades down and back, and bring the bar to your chest. Pause, then return to the starting position.

EZ-BAR PREACHER CURL — 3 sets of 15 reps; rest 30 secs between sets
Grab an EZ-bar with an underhand grip, hands shoulder-width apart, and sit on a preacher bench. Place the back of your upper arms against the padding and allow your arms to fully extend. Contract your biceps and curl the bar toward your face. Raise the bar as high as possible while maintaining constant tension on the biceps. Pause, and then slowly lower the bar back to the starting position.

TRICEPS DUMBBELL KICKBACK — 3 sets of 15 reps each side; rest 30 secs between sets
Kneel over one side of a weight bench by placing the right knee and right hand on the bench. Position the left leg slightly back and to the side with the left foot firmly planted on the floor. The torso should be parallel to the floor. Grab a dumbbell with the left hand with an overhand grip, and position the elbow at your side so the upper arm is parallel to the floor. Now extend the left arm to full extension by contracting the triceps.

**STRENGTH TRAINING**

**STANDING RESISTANCE-BAND HIP ABDUCTION — 3 sets of 15 reps each side; rest 30 secs between sets**

Loop a resistance band around a sturdy object and your ankle. Stand tall with the looped ankle farthest from the opposite end of the band while holding the sturdy object with your inside arm. This is your starting position. Lift looped ankle up and straight out to the side as far as possible. Pause, then return leg to starting position.

**LATERAL SQUAT — 3 sets of 15 reps each side; rest 30 secs between sets**

Begin by standing tall with your heels pressed together, turning your toes out to 45 degrees. Keep your hands on your hips for support. Slide your right foot out farther than hip width, keeping your left foot in the same position, and descend into a squat position. Make sure to keep your chest pushed out and abs tight the entire time. Rise out of the squat position, sliding your leg back to the starting position before repeating with your opposite side.

WEEK 12
Goal: Build Muscle
Gym Days: 5 (pick whichever 5 days of the week you can work out)

**STRENGTH TRAINING CONT.**

- **Split Squat with Dumbbell** — 3 sets of 15 reps each side; rest 30 secs between sets
  Hold a pair of dumbbells at arm's length next to your sides, your palms facing each other. Stand in a staggered stance, your left foot in front of your right. Slowly lower your body as far as you can. Your rear knee should nearly touch the floor. Pause, then push yourself back up to the starting position. Complete the prescribed number of reps, then do the same number of reps with your right foot in front of your left.

- **Standing Calf Raise** — 3 sets of 15 reps; rest 30 secs between sets
  Stand on a box or stair with your heels and mid-foot hanging off the edge. Use a wall or rail to stay balanced. Raise your heels as high as possible, pause, and then lower them back into the starting position. Repeat.

- **Reverse Crunch** — 3 sets of 30 reps; rest 30 secs between sets
  Lie on your back with your knees together and your legs bent to 90 degrees, feet planted on the floor. Place your palms facedown on the floor for support or cross over your chest. Bring your knees into your chest, tightening your abs to lift your hips off the floor. Pause at the top before lowering your legs as close to the ground as possible without allowing your lower back to arch and lose contact with the floor. Return to the starting position.

- **Crunch** — 3 sets of 30 reps; rest 30 secs between sets
  Lie flat on your back, placing your hands behind your head or cross over your chest. Bring your feet close to your glutes so your knees are bent and your feet are flat on the ground. Tighten your abs and lift your shoulders and upper back off of the ground. Squeeze your abs at the top of the movement and hold for one second. Return to starting position and repeat.

- **Side Plank with Twist** — 3 sets of 15 reps each side; rest 30 secs between sets
  Lie on your side and position yourself on your bottom elbow and the side of your foot. Lift your hips off the ground and form a straight line from your shoulders to your feet. Brace your abs and squeeze your butt. Take your top arm and sweep underneath and slightly behind you. Your torso will twist forward and make sure to pivot your feet. Bring your arm back to the starting position as your body straightens out. Finish the rep with your shoulders square and your arm pointed toward the ceiling. Do all reps, switch sides, and repeat.
