Week 2

Goal: Boost Performance

Gym Days: 4 (pick whichever 4 days of the week you can work out)

CARDIO

Do 25 mins of cardio on a machine of your choice—treadmill, elliptical or stationary bike—keeping the pace within an exertion zone of 2–3. (Zone 1 is a light warm-up, and Zone 5 is nearly maximum effort.)

STRENGTH TRAINING

Follow your cardio with this 20-min weight-training circuit. All you need is a pair of 5- and 10-pound dumbbells and a medicine ball. You’ll complete 3 rounds total, doing each exercise continuously for 1 min before starting the next. Rest 1 min between sets.

SQUATS — Aim for 10–15 reps
Stand as tall as you can with your feet shoulder-width apart, toes slightly pointed outward. Keep arms in front of you at chest height to help maintain balance. Drop your hips and sit back until your thighs are parallel with the floor. Pause, then drive through the heels and lift body upwards back to the starting position, squeezing the glutes at the top of the movement.

SHOULDER PRESS — Aim for 10–15 reps
Hold a pair of dumbbells just outside your shoulders, your arms bent and palms facing each other. Set your feet at shoulder-width and bend your knees slightly. Press both dumbbells up, until your arms are straight. Then return to the starting position.

BICYCLE SIT-UPS — Aim for 40 reps
Lie on your back with your knees bent and feet flat on the floor. Place your palms hands-behind-your-head. Bring your knees to your chest and raise your shoulders. Slowly move your legs in the air as if you’re riding a bike.

SIDE LUNGE — Aim for 10–15 reps each side
Stand tall with your feet about double shoulder-width apart, your hands cupped in front of your chest. Push your hips back, bend your right knee, and shift your weight to the right, dropping your hips. Return to the starting position and then immediately repeat to the left.

**Week 2**

**Goal: Boost Performance**

**Gym Days:** 4 (pick whichever 4 days of the week you can work out)

---

**STRENGTH TRAINING (CONT.)**

**Lateral Raise** — Aim for 10–15 reps

Grab a pair of dumbbells and let them hang at your sides. Stand tall and make sure your palms are facing your body. Keeping your elbows slightly bent, raise your arms straight out to the sides until they’re at shoulder level. Pause, then lower the weights back to the starting position.

**Reverse Lunge with Dumbbells** — Aim for 10–15 reps each leg

Hold a dumbbell in each hand, keeping your arms entirely straight. Push your chest out and take a large step backwards, lowering your rear knee toward the ground while keeping your front shin as vertical as possible. Push yourself back to the starting position and switch legs.

**Glute Bridge with Adduction** — Hold for 1 min

Lie on your back with your knees bent and heels flat against the floor. Keep your feet hip-width apart. Place a medicine ball, rolled-up towel or exercise mat between your knees. Tighten your stomach and press your heels into the floor, driving your hips upward and squeezing your knees together. Finish the movement by squeezing your butt, making sure not to use your lower back.

---

**STRETCH SESSION**

**Hamstring Stretch**

Hold 30 secs each side

Stand next to an exercise bench. Place one leg on the bench. Stand tall, puff out your chest, and move your shoulders down. Slightly bend your standing leg knee and bend over at the waist. Once you feel a stretch behind the thigh of your lifted leg, stop and hold this position.

**Glute Stretch**

Hold 45 secs each side

Lie on your back and cross one leg over the other. Clasp your hands behind your uncrossed leg. Hug your leg in toward your stomach.

**Lying Abduction Stretch**

Hold 30 secs each side

Lie on the ground on your right side, your left leg stacked on your right, and your knees bent 90-degrees. Lift your left knee, raising it as high as you can while keeping your feet together.

**Biceps Stretch**

Hold 45 seconds

Place hands together, palms facing each other with fingers interlocked behind your back. Straighten and rotate your palms so they face downward. Lift arms away from the body until you feel a stretch in the biceps.

The Gold's Gym 12-Week Personal Transformation Plan

WEEK 2

Goal: Boost Performance

Gym Days: 4 {pick whichever 4 days of the week you can work out}

DAY 1 | DAY 2 | DAY 3 | DAY 4

CARDIO

HILL SPRINTS
Zone 1 is a light warm-up, and Zone 5 is nearly maximum effort. As a general guide, treadmill incline should be somewhere between a 4% and a 10% grade, and sprint speed should be between 7.5 and 10 mph. Focus on pushing yourself but keep good posture with your hips, shoulders and neck relaxed.

The 15-min workout

• Warm-up: 2 mins / Zone 1
• Warm-up: 1 min / Zone 2
• High-incline power walk: 1.5 mins / Zone 4
• High-incline sprint: 1.5 mins / Zone 5
• Rest interval: 3 mins / Zone 2
• High-incline power walk: 1.5 mins / Zone 4
• High-incline sprint: 1.5 mins / Zone 5
• Cool down: 2 mins / Zone 2
• Cool down: 1 min / Zone 1

STRENGTH TRAINING

UPPER BODY SUPERSETS (15 mins)

A superset means doing two consecutive exercises back to back without a rest. Use a low to medium weight that feels challenging. You don’t have to overdo it with weight because the workout includes lots of reps, continuing to build lean muscles and muscle endurance. It should burn.

Rest 1 min between each superset.

See more on next page »
**WEEK 2**

**Goal: Boost Performance**

**Gym Days:** 4 (pick whichever 4 days of the week you can work out)

### STRENGTH TRAINING CONT.

#### First Superset

**CABLE CROSSOVER — 3 sets of 12 reps on each side**

Begin in a staggered stance with your body positioned in the middle of a dual cable machine with one weight stack on either side of you. Adjust the handles so they're slightly lower than shoulder-height and grab the handles so your palms are facing forward and your arms are roughly parallel with the ground. Maintain a slight bend in the elbows. Contract your pecs and pull your arms together in front of you, keeping a slight forward lean from the waist up. Pause, and then slowly return the weight back to the starting position.

#### PUSHUPS — 3 sets of 8 reps

Lie flat on the floor, and place your hands on the floor slightly wider than and in line with your shoulders. Form a straight line with your body from your ankles to your shoulders. Squeeze your abs as tight as possible and keep them contracted for the entire exercise. Lower your body until your chest nearly touches the floor, making sure that you tuck your elbows close to the sides of your torso. Pause, then push yourself back to the starting position.

#### Second Superset

**STRAIGHT-ARM LAT PULLDOWN — 3 sets of 10 reps**

Sit at a lat pulldown station and grab the bar with an overhand grip that's just beyond shoulder-width. Your arms should be completely straight and your torso upright. Pull your shoulder blades down and back, and bring the bar to your chest. Pause, then return to the starting position.

**DUMBBELL ROW — 3 sets of 10 reps**

Stand with feet shoulder-width apart and holding a dumbbell in each hand. Bend the knees slightly and bend at the waist with your back straight. Avoid rounding the upper back, and keep the head neutral. Extend your arms fully so each dumbbell is just above the floor. Contract your back and pull both dumbbells up to your ribcage. Be sure to pull through the elbow and hold for one second in the top position. Lower the dumbbells to the fully extended arm position and repeat.

### STRETCH SESSION CONT.

**OVER UNDER SHOULDER STRETCH**

Hold 30 secs each side

Stand tall with your arms hanging at your sides, grasping a resistance band in both hands behind your back. Twisting the band, bend your left arm and bringing it behind your back and grasping the resistance band as high as possible. Simultaneously bend your right arm above your head, pointing your elbow upwards and grasping the resistance band as low as possible.

**CAT CAMEL**

15 reps

Get on the floor on all fours with your hands directly beneath your shoulders and knees directly beneath your hips. Begin to exhale and lightly press into the ground with your palms, while rounding your upper back toward the ceiling. Slowly lower your head, resting it between your shoulders. Pause and take a deep breath in, while slightly arching your back as you look up towards the ceiling.

## WEEK 2

**Goal: Boost Performance**

**Gym Days:** 4 (pick whichever 4 days of the week you can work out)

### DAY 1

**CARDIO**

Do 45 mins of cardio on a machine of your choice—treadmill, elliptical or stationary bike—keeping the pace within an exertion zone of 2–3. (Zone 1 is a light warm-up, and Zone 5 is nearly maximum effort.) You could also divide your time between all three options.

### DAY 2

**CORE CHECK-IN**

**PLANK — 3 sets of 30-sec holds (rest for 30 secs between holds)**

Lie facedown with your elbows directly beneath your shoulders and raise your torso into the air until it’s a completely straight line from your shoulders to your ankles. Tighten your stomach, squeeze your glutes, and hold this position for the desired amount of time.

**SIDE PLANK — 3 sets of 30-sec holds on each side (rest for 30 secs between holds)**

Begin facedown with your elbows resting on the floor or a mat. Rotate to the right side, then push up so you are resting on your right forearm and outer right foot, with your hips and back in alignment. Try not to let your hips sag. Repeat on left side.

### DAY 3

**STRETCH SESSION**

- **HAMSTRING STRETCH**
  Hold 30 secs each side

- **GLUTE STRETCH**
  Hold 45 secs each side

- **LYING ABDUCTION STRETCH**
  Hold 30 secs each side

- **BICEPS STRETCH**
  Hold 45 seconds

The Gold’s Gym 12-Week Personal Transformation Plan

**WEEK 2**

**Goal:** Boost Performance

**Gym Days:** 4 (pick whichever 4 days of the week you can work out)

---

**TIP SHEET: Boost Performance Week 2**

**WORKOUT TIPS**

On Week 2 here are a few tips to keep your workouts on track:

- **Schedule gym time:** You have 4 days of workouts this week that can be done on whichever days of the week work best for you. So sit down with your weekly calendar and make sure to write in gym time. Don’t have time for a full workout? Split it in two and do the other half on a rest day.

- **Try morning workouts:** If you get your sweat session out of the way first thing in the a.m., you won’t miss out if unexpected distractions come up later in the day. (And skip the snooze button: Research suggests that those extra few minutes in bed may actually make you more tired.)

**MENU NOTES**

As you settle in to your weekly menu, here are a few guides to help you make the most of it:

Which herbs do we recommend to add flavor and taste to your meals:

- Oregano
- Basil
- Parsley
- Rosemary

Cook meat safely with a food thermometer. Here are the safe minimum cooking temperatures for meat from [FoodSafety.gov](https://www.foodsafety.gov):

- Ground beef: 160 F
- Ground chicken: 165 F
- Steak: 145 F
- Chicken and turkey: 165 F
- Pork: 145 F

**BONUS**

"Metabolic Meatballs" Recipe from Gold's Gym Fitness Institute trainer Robert Reames

Serves: 2

1/2 lb of ground beef and or turkey
1 tsp turmeric powder
1 tsp cayenne pepper
1 tsp garlic powder

Mix spices in with the meat. Form the meatballs into golf ball size. Saute in olive oil and serve.
