**STRENGTH TRAINING CONT.**

**LUNGE WITH DUMBBELLS AT SIDES — 10 reps each side**
Grab a pair of dumbbells and hold them at arm's length next to your sides, your palms facing each other. Step forward with your right leg and slowly lower your body until your front knee is bent at least 90 degrees. Pause, then push yourself to the starting position as quickly as you can. Complete the prescribed number of reps with your right leg, then do the same number with your left leg.

**DUMBBELL BICEPS CURL — 10 reps**
Grab a pair of dumbbells and stand up straight with a tight torso. Allow the dumbbells to hang at arm's length with palms facing forward. With feet shoulder-width apart, bend your elbows to curl the dumbbells upward to your shoulders. Pause for 1 sec and slowly allow the weights to return to the starting position. Completely straighten your arms and repeat until all reps are completed.

**SQUAT, PLANK, PUSHUP — 5 reps**
Stand with your feet shoulder-width apart and toes pointed outward. Lower your hips until your thighs are parallel to the ground. Place your hands directly in front of you on the floor. Jump the legs back so that you're in a full plank position. Keeping the elbows tucked close to the torso, descend into a pushup until your chest touches the ground. Jump your feet forward into a squat position and repeat.

**Circuit 2 (3 times; rest 1 min at end of each circuit)**

**BASIC BENCH — 10 reps**
Lie on a bench holding a barbell with an overhand grip. Keep hands slightly wider than shoulder-width apart. Press the barbell above your chest, straightening your arms. Hold the barbell in place for 30 secs and lower it to your chest to return to start.

**DUMBBELL FLY — 10 reps**
Grab a pair of dumbbells and lie on your back on a bench with a 30 to 45 degree angle. Raise your arms straight above your chest with your palms facing each other and your elbows slightly bent. Slowly lower the dumbbells in an arc down and away from your body. Once the dumbbells are just above chest level—reverse the movement to the starting position, making sure you squeeze the muscles in your chest at the top of the movement.

Goal: Get Lean Advanced
Gym Days: 4 (pick whichever 4 days of the week you can work out)

STRENGTH TRAINING

Core Circuit (3 times; rest 1 min at end of each circuit)

PLANK — Hold for 30 secs
Lie facedown with your elbows directly beneath your shoulders, raising your torso into the air until it's a completely straight line from your shoulders to your ankles. Tighten your stomach, squeeze your glutes, and hold this position for the desired amount of time.

PLANK WITH GLUTE RAISE — 12 reps each side
Lie on your side and position yourself on your bottom elbow and side of your foot. Raise your hips so that they're off the ground and your body forms a straight line from your ankles to shoulders. Brace your abs and squeeze your glutes. While keeping your torso stable, raise your top leg upward without bending your knee. Do not let your hips drop. Return the leg to the starting position. Do all reps, switch sides, and repeat.

SIDE PLANK — Hold for 30 secs each side
Begin facedown with your elbows resting on the floor or a mat. Rotate to the right side, then push up so you are resting on your right forearm and outer right foot, with your hips and back in alignment. Try not to let your hips sag. Repeat on left side.

STACKED FEET PUSHUP — 12 reps
Get in the standard pushup position with your hands slightly wider than shoulder-width apart and elbows completely locked out. Keeping one foot planted on the ground, pick the other foot up and place it on the heel of the planted foot. Keeping your core tight, slowly lower yourself toward the ground. Make sure to keep your elbows tucked in close by your sides so they make a 45-degree angle with your torso. Once your chest touches the ground, pause, and then press back up to the starting position. Repeat for the prescribed number of reps.

SUPERMAN — Hold for 30 secs
Lie facedown on the floor with your legs straight and your arms out in front of you. Your palms should be down on the floor. Squeeze your glutes and lower back to raise your upper body off the floor keeping your hands out in front of you. Simultaneously, lift your straight legs off the floor. **Week 3**

**Goal: Get Lean Advanced**

**Gym Days:** 4 (pick whichever 4 days of the week you can work out)

---

**TIP SHEET: Get Lean Week 3**

---

**Workout Tips**

On Week 3 here are a few tips to help you make the most of your gym time:

- **Mix up cardio:** Your plan often lets you pick and choose which cardio machines you can use. Make sure to switch it up as often as you can. Sticking to one type of cardio can allow your muscles to adapt and get too familiar with the training—so you don't get the same results you once did.

- **Minimize phone stops:** Texting and talking between sets leads to bad gym behavior for two reasons. One, you might end up taking more time between sets, wasting valuable gym time and letting your heart rate slip. Two, while you’re typing away, your body wants you to be hydrating and stretching to recover from the work it just put in.

- **Loosen your grip:** An overly tight grip on exercise machines or free weights does nothing more than strengthen your forearms and will tire you out faster when performing exercises. Try loosening your grip, or invest in some padded gloves and straps to help ease the tension.

---

**Menu Notes**

Your menu outlines all the ingredients you need for a healthy week, but make sure you’re putting the best version of those ingredients in your shopping bag. Some tips to make sure you do:

- Be positive that you’re buying the most sustainable and healthy seafood around by checking [Seafoodwatch.org](http://www.seafoodwatch.org). It’s simple interface lets you easily find out the best choices for fish and crustaceans and good alternatives when the best isn’t available.

- The Environmental Working Group scores food based on nutrition, ingredients and how processed it is. You can search their database on [www.ewg.org/foodscores](http://www.ewg.org/foodscores) or download their [Food Scores](http://www.ewg.org/foodscores) app.
