WEEK 4  |  Goal: Stay Healthy  
Gym Days: 4 (pick whichever 4 days of the week you can work out)

CLASS DAY

Focus: Cardio and Flexibility/Strength

Cardio
Do 20 mins of cardio on a machine of your choice—treadmill, elliptical or stationary bike. Begin with a 2-min warm-up at Zone 1, then maintain an exertion level between Zone 3 and Zone 4. Finish with a 30-sec cooldown at Zone 2. (Zone 1 is a light warm-up, and Zone 5 is nearly maximum effort.)

Flexibility and Strength
Attend a restorative yoga class (1 hour).

**DAY 1**

**CARDIO**

Do 20 mins of cardio on a machine of your choice—treadmill, elliptical or stationary bike. Begin with a 1-min warm-up at Zone 1, then maintain an exertion level between Zone 3 and Zone 4. (Zone 1 is a light warm-up, and Zone 5 is nearly maximum effort.)

**STRENGTH TRAINING**

**RESISTANCE-TRAINING CIRCUIT (2 rounds; rest 1 min at the end of each round)**

Try this bootcamp-style resistance-training workout. Do these exercises in a circuit; that is, do 1 set of an exercise, then move on to the next exercise. The key is to keep your heart rate high by constantly moving, but make sure to rest as instructed between sets.

**OVERHEAD DUMBBELL SQUAT**

Hold a pair of dumbbells directly above your head at about shoulder-width apart. Your feet should be shoulder-width apart, too. Maintain a tight core, and begin to lower your hips by pushing them back, and then bending your knees. Make sure the dumbbells remain directly above your head during the entire movement. At the bottom of the movement, your knees should be at about 90 degrees. Pause for a second, and then push through your heels back to the starting position. Repeat until all prescribed reps are completed.

**Round 1:** 8 reps  
**Round 2:** 10 reps

**STRAIGHT-ARM LAT PULLDOWN**

Sit at a lat pulldown station and grab the bar with an overhand grip that’s just beyond shoulder width. Your arms should be completely straight and your torso upright. Pull your shoulder blades down and back, and bring the bar to your chest. Pause, then return to the starting position.

**Round 1:** 8 reps  
**Round 2:** 10 reps

Week 4

Goal: Stay Healthy

Gym Days: 4 (pick whichever 4 days of the week you can work out)

Strength Training (cont.)

Pushup with Medicine Ball
Grab a medicine ball and place it on the ground. Get in the standard pushup position with one hand on the floor and the other hand on top of the medicine ball. Your body should be in a straight line with your legs straight and toes pointing into the ground. Keeping your core tight, slowly lower yourself toward the ground. Make sure to keep your elbows tucked in close by your sides so they make a 45-degree angle with your torso. Once your chest nearly touches the ground, pause, and then press back up to the starting position. Roll the medicine ball beneath the other hand and perform the same movement. Repeat for the prescribed number of reps.

Round 1: 3 reps each side
Round 2: 5 reps each side

Step-Ups with Dumbbells
Stand behind an exercise bench or box. Hold a dumbbell in each hand at your sides and place your right foot on the box. Shift your weight onto your right leg to step onto the box. Keep the help from your left leg to a minimum. Finish by stepping onto the box with your left leg. Step your left leg down. Do all reps with your right leg, switch sides, then repeat.

Round 1: 8 reps each side
Round 2: 10 reps each side

Kettlebell Swing
Hold a single kettlebell with both hands, using an overhand grip and keeping your feet shoulder-width apart. Bend your knees slightly while pushing your hips backward, pushing your chest out and hinging your torso until it is parallel with the floor. Explosively push your hips forward while squeezing your glutes, letting the momentum from this movement propel the kettlebell, not by using your arms.

Round 1: 8 reps
Round 2: 10 reps

### DAY 3

#### STRENGTH TRAINING

**HOVERING SITUP**
Start by sitting with your feet and upper back off the ground and knees bent toward your chest, placing your hands behind your head for support and balance. Make sure not to pull at your neck. Tighten your abs and straighten your legs out completely while leaning back, touching your lower back to the ground while making sure that your shoulders remain in the air. Use your abs to crunch up and return to the starting position, repeating for the desired number of repetitions.

- **Round 1:** 10 reps
- **Round 2:** 12 reps

**Stretching:** 5 mins

#### STRETCH SESSION

- **QUAD STRETCH**  
  Hold 30 secs each side
- **SCORPION**  
  Hold 45 secs each side
- **STRAIGHT-LEG CALF STRETCH**  
  Hold 30 secs each side
- **OVER-UNDER SHOULDER STRETCH**  
  Hold 30 secs each side

### TIP SHEET: Stay Healthy Week 4

#### WORKOUT TIPS

Welcome to Week 4 and the last tip sheet of your plan. Now that you’re nearly a month into the program, we think you’re mentally prepared enough to go it on your own. To send you off right, here are three tips on how to stay motivated:

- **Find a workout buddy.** Research has proven that people perform better as a team. When you schedule workouts with a friend, you’re held accountable and are less likely to skip out on a workout.

- **Reward yourself.** When you reach a goal—like going to the gym five days in a row—make sure to pat yourself on the back. Buy yourself a new workout tank top or have a glass of wine. Knowing that there’s a reward down the line can help motivate you on the tough days.

- **Publicize your progress.** Share your goals with friends and family on Facebook or Twitter. Telling other people about your fitness plans can give you a much-needed fan base to cheer you on—or help you get through a plateau.
