**STRENGTH TRAINING**

**SEATED CABLE ROW** — 3 sets of 10 reps each side; rest 30 secs between sets
Sit at a low pulley cable station with a V-handle attachment. Place feet securely on the platform and using your legs (not your back), sit back into the start position with your arms fully extended and supporting the weight. Keeping your torso stationary, drive your elbows past your back and pull the cable attachment toward the waist. Attempt to squeeze shoulder blades together and hold this contraction for a second. Return the weight until the arms are fully extended, and repeat the movement. To end the set, return the weight to the starting position by bending at the knees and not the lower back.

**DUMBBELL LATERAL RAISE** — 3 sets of 10 reps each side; rest 30 secs between sets
Grab a pair of dumbbells and let them hang at your sides. Stand tall and make sure your palms are facing your body. Keeping your elbows slightly bent, raise your arms straight out to the sides until they're at shoulder level. Pause, then lower the weights back to the starting position.

WEEK 7

Goal: Build Muscle

Gym Days: 5 (pick whichever 5 days of the week you can work out)

Day 1

STRENGTH TRAINING CONT.

DUMBBELL BICEPS CURL — 3 sets of 10 reps; rest 30 secs between sets
Grab a pair of dumbbells and stand up straight with a tight torso. Allow the dumbbells to hang at arm's length with palms facing forward. With feet shoulder-width apart, bend your elbows to curl the dumbbells upward to your shoulders. Pause for a second and slowly allow the weights to return to the starting position. Completely straighten your arms and repeat.

TRICEPS PRESSDOWN — 3 sets of 10 reps; rest 30 secs between sets
Facing the pulley station, grab the V-handle attachment, set to a high pulley with a shoulder-width, overhand grip. Holding the attachment and supporting the weight, bring your elbows to your sides so your forearms are parallel to the floor. This is the starting position and from here your elbows shouldn’t move. Extend your forearms straight down by contracting the triceps, twisting the attachment slightly so the knuckles face the floor at the bottom. Hold at lockout for 1 second before returning to the starting position.

PLANK — 3 sets of 30 secs holds; rest 1 min between each hold
Lie facedown with your elbows directly beneath your shoulders, raising your torso into the air until it's a completely straight line from your shoulders to your ankles. Tighten your stomach, squeeze your glutes, and hold this position for 30 secs.

SIDE PLANK — 3 sets of 30 secs holds on each side; rest 30 secs between each hold
Begin facedown with your elbows resting on the floor or a mat. Rotate to the right side, then push up so you are resting on your right forearm and outer right foot, with your hips and back in alignment. Try not to let your hips sag. Hold. Repeat on left side.

MEDICINE-BALL WOOD CHOPS — 3 sets of 10 reps each side; rest 30 secs between sets
Stand with your feet shoulder-width apart. Hold a weight or medicine ball in front of your stomach. Squat down, keeping your knees out, chest up and shoulders back. Bring the ball to the outside of your right knee. Stand, and bring the ball across your body toward your left shoulder. Bring the ball to starting position. Switch sides and repeat.

**DAY 1**

**STRENGTH TRAINING**

**FIRe HYDRANT** — 3 sets of 10 reps each side; rest 30 secs between sets

Get on your hands and knees on the floor, making sure to keep your knees and hands hip-width and shoulder-width apart, respectively. Your knees should be bent to 90 degrees, directly beneath your hips. Tighten your core and, without moving your hips, raise your right thigh out to the right side of your body, keeping your knee bent the entire time. Without dropping your hips, straighten your leg backward so that it is in line with the rest of your body. Return to the starting position to switch legs.

**GLUte BRIdGE WItH ADDuCTION** — 3 sets of 30 secs holds; rest 30 secs between sets

Lie on your back with your knees bent and heels flat against the floor. Keep your feet hip-width apart. Place a medicine ball, rolled-up towel, or exercise mat between your knees. Tighten your stomach and press your heels into the floor, driving your hips upward and squeezing your knees together. Finish the movement by squeezing your butt, making sure not to use your lower back.

---

**CORE STRENGTH TRAINING**

**HOVERINg SITUP** — 3 sets of 10 reps; rest 30 secs between sets

Start by sitting with your feet and upper back off the ground and knees bent toward your chest, placing your hands behind your head for support and balance. Make sure not to pull at your neck. Tighten your abs and straighten your legs out completely while leaning back, touching your lower back to the ground while making sure that your shoulders remain in the air. Use your abs to crunch up and return to the starting position, repeating for the desired number of repetitions.

**MEDICINE-BALL SIDE-THROW** — 3 sets of 10 reps each side; rest 30 secs between sets

Stand in a shoulder-width stance with your right side two to three feet away from a wall, holding a medicine ball in your hands. Extend your arms fully in front of you so that the ball is at chest height. Keeping your abs tight, rotate your torso away from the wall, quickly reversing directions to throw the ball against the wall as hard as possible and catching it on the rebound. Complete all reps before switching sides.

**STRENGTH TRAINING**

**BACK SQUAT** — 3 sets of 10 reps; rest 30 secs between sets  
Hold a barbell across your upper back with an overhand grip and your feet shoulder-width apart. Keeping your lower back arched, lower your body as deeply as you can by pushing your hips back and bending your knees. Pause, then reverse the movement back to the starting position.

**DUMBBELL STRAIGHT-LEG DEADLIFT** — 3 sets of 10 reps; rest 30 secs between sets  
Grab a pair of dumbbells with an overhand grip, and hold them at arm’s length in front of your thighs. Stand with your feet hip-width apart and your knees slightly bent. Brace your core—try to make it stiff—and hold it that way throughout the entire movement. Without changing the bend in your knees, bend at your hips and lower your torso until it’s almost parallel to the floor. Don’t round your lower back. It should stay naturally arched as you lower your body. Pause, then squeeze your glutes tightly and raise your torso back to the starting position.

Sit on a leg-press machine with feet hip-width apart. Set the weight on a challenging (comfortable) resistance. Bend your knees 90 degrees, keeping your feet flat against the foot plate. Extend your legs until they are straight but not locked. Slowly return to the starting position.

**STRENGTH TRAINING CONT.**

**SPLIT SQUAT WITH DUMBBELLS** — 3 sets of 10 reps each side; rest 30 secs between sets
Hold a pair of dumbbells at arm's length next to your sides, your palms facing each other. Stand in a staggered stance, your left foot in front of your right. Slowly lower your body as far as you can. Your rear knee should nearly touch the floor. Pause, then push yourself back up to the starting position. Complete the prescribed number of reps, then do the same number of reps with your right foot in front of your left.

**SHifting SIDE lunge** — 3 sets of 10 reps each side; rest 30 secs between sets
Hold a dumbbell in each hand, keeping your arms entirely straight. Push your chest out and take a large step to the side, pushing your hips back and bending the knee of the lead leg. Keep your trailing leg as straight as possible. As you lunge, bend forward at the hips and reach the dumbbells on both sides of your lead leg, making sure to keep your lower back from rounding. Bend your opposite knee, shifting the weight onto both legs while reaching the dumbbells straight down in front of you. Straighten your former lead leg, shifting your weight to the opposite side while lunging, placing the dumbbells on both side of that leg. Push off your lead leg, bringing your feet together and returning to the starting position.

**Leg Curl Machine** — 3 sets of 10 reps; rest 30 secs between sets
Set the machine to a weight. Lying stomach-down on the bench part of the machine, hook your ankles behind the padded leg rests. Draw your ankles toward your buttocks until your legs form a 90-degree angle. Slowly return to the starting position.

**Leg Extension Machine** — 3 sets of 10 reps; rest 30 secs between sets
Sit down on the seat and hook your legs behind the padded bar. Adjust the bar so that it rests on your lower leg. Select a weight and slowly lift the bar until your legs are almost straight, then lower your legs back down. Make sure to keep your back straight and grip the handles on each side of the seat.
