Week 9

Goal: Stay Healthy

Gym Days: 5 (pick whichever 5 days of the week you can work out)

**CARDIO**

Do 60 mins of cardio on a machine of your choice—treadmill, elliptical or stationary bike. The level of intensity varies between Zone 1 (lowest level; barely feel exertion) and Zone 5 (highest exertion level; maximum effort).

Warm-up: 10 mins / Zone 3

Interval Cycle (repeat 3 times)

- 4 mins / Zone 4
- 1 min / Zone 5
- 3 mins / Zone 4
- 1 min / Zone 2

Cooldown: 5–10 mins at an easy pace

**STRENGTH TRAINING**

Follow your cardio with this short strength routine. Put 15 mins on the clock and repeat this series until time runs out—no breaks between exercises!

**PUSHUPS — 10 reps**

Get on all fours, and place your hands on the floor slightly wider than and in line with your shoulders. Your body should form a straight line from your ankles to your shoulders. Squeeze your abs as tight as possible and keep them contracted for the entire exercise. Lower your body until your chest nearly touches the floor, making sure that you tuck your elbows close to the sides of your torso. Pause, then push yourself back to the starting position.

**MOUNTAIN CLIMBERS — 45 secs**

Get into the pushup position, keeping your arms completely straight and directly beneath your shoulders. Tighten your stomach and lift one foot off the floor, raising your knee up toward your chest while keeping your body in as straight a line as possible. Return to the starting position and repeat the movement with your opposite leg.

**STRENGTH TRAINING CONT.**

**SQUATS — 15 reps**
Stand as tall as you can with your feet shoulder-width apart, toes pointed slightly outward. Keep arms out in front of you at chest height to help maintain balance. Drop your hips and sit back until your thighs are parallel with the floor. Pause, then drive through the heels and lift body upward to the starting position, squeezing the glutes at the top of the movement.

**SIDE PLANK WITH TWIST — 10 reps each side**
Lie on your side and position yourself on your bottom elbow and the side of your bottom foot. Lift your hips off the ground so your body forms a straight line from your shoulders to your feet. Brace your abs and squeeze your butt. Take your top arm and sweep underneath and slightly behind you. Your torso will twist forward; make sure to pivot your feet. Bring your arm back to the starting position as your body straightens out. Finish the rep with your shoulders square and your arm pointed toward the ceiling. Do all reps, switch sides and repeat.

WEEK 9  
**Goal: Stay Healthy**  
**Gym Days:** 5 (pick whichever 5 days of the week you can work out)

---

**BALANCE AND STRENGTH**

Plyometric workouts utilize jumps, hops and rapid movements to engage muscle groups in your core and lower and upper body—at times simultaneously to increase balance and strength.

Do 2 sets of each of these exercises in this order, resting for 1 to 2 mins between each set.

**SQUAT JUMP ONTO BOX — 12 reps**

Stand in front of a 12-inch box or a stabilized weight bench. Push your hips back, squat down and jump with both feet onto the box. Jump off the box, reset and repeat the movement. Repeat until desired amount of reps are completed.

**SQUAT, PLANK, PUSHUP — 10 reps**

Stand with feet shoulder-width apart and toes pointed outward. Lower your hips until your thighs are parallel to the ground. Place your hands directly in front of you on the floor. Jump your legs back so that you’re in a full plank position. Keeping the elbows tucked close to the torso, descend into a pushup until your chest touches the ground. Jump your feet forward into a squat position and repeat.

**SCISSOR POWER SWITCH — 12 reps each leg**

Stand with your feet a lunge-length apart, with your right foot in front of your left. Bend both knees to 90-degrees and descend into the lunge. Reach for the ground with your left hand. Switch sides and repeat.

**PLYOMETRIC SIDE PLANK — 12 reps each side**

Lie on your right side with your legs completely straight. Using your right elbow and forearm, prop your body up, making sure to keep your abs tight the entire time. Raise your hips into the air until your body is in a straight line from your ankles to your shoulder. Once in this position, raise your top leg and move it forward and backward, making sure not to let your hips sag, before switching sides.

**WEEK 9**

**Goal: Stay Healthy**

**Gym Days:** 5 (pick whichever 5 days of the week you can work out)

**Balance and Strength**

- **SIDE SHUFFLE SWITCH** — 20 reps each side
  Stand straight up with your arms by your sides and feet shoulder-width apart. Perform three quick side shuffles to one side, making sure to raise your knees as high as possible during every step. On the last shuffle, land on your outside foot and pause with your opposite knee raised above hip height. Lower the knee and perform three side shuffles to the other side. Repeat for the prescribed number of repetitions.

- **MEDICINE-BALL KNEELING SIDE THROW** — 12 reps each side
  Hold a medicine ball in front of your chest with your arms extended and stand sideways about 3 feet from a wall. Slightly bend your elbows. Bring the ball across your body, then quickly rotate your torso and throw the ball against the wall. As the ball rebounds off the wall, catch and repeat the movement. Do all reps, switch sides and repeat.

- **MEDICINE-BALL WOOD CHOP** — 12 reps each side
  Stand with your feet shoulder-width apart. Hold a weight or medicine ball in front of your stomach. Squat down, keeping your knees out, chest up and shoulders back. Bring the ball to the outside of your right knee. Stand, and bring the ball across your body toward your left shoulder. Bring the ball to starting position. Do all reps, switch sides and repeat.

- **MEDICINE BALL SLAM** — 12 reps
  Grab a medicine ball and hold it above your head. Your arms should be slightly bent and your feet shoulder-width apart. Forcefully slam the ball to the floor in front of you as hard as you can. Pick the ball up and repeat.
